About me

Web Developer with experience in building and maintaining websites and web applications using technologies such as React, REST APIs, and MongoDB. I have knowledge of UX/UI design, databases, and full-stack development.

I'm particularly passionate about frontend design, creating visually appealing, intuitive, and functional interfaces. I'm also eager to keep learning, improve my skills, and take on new professional challenges.

Projects

- **Product and Category Management Application:** Developed a web application using React, Node.js, and MongoDB, incorporating statistics and charts for data visualisation.
- **Colour Converter Tool:** Developed an interactive tool using JavaScript, HTML, and CSS to convert colours between different formats.

Education

Higher Technician Diploma in Web Application Development (DAW)
IES Pedro Jiménez Montoya, Granada - 2022 · 2024
